

03/16

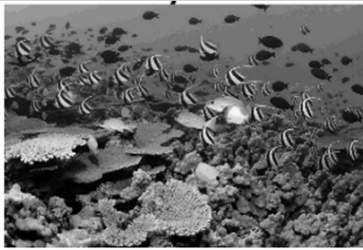

Mono Lake

#2

Agenda
~Vocab
review
~Layered
foodweb

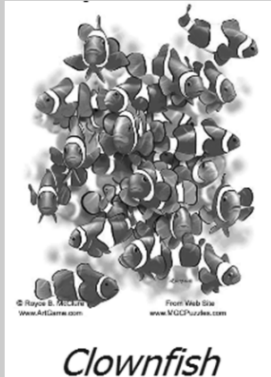

Entry Task: Indicate if each picture is of an ecosystem, community, population, or individual.

1.

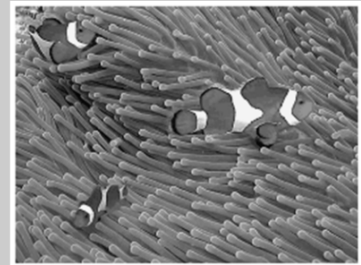

Coral Reef

2.

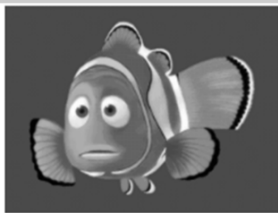

Clownfish

3.

*Clownfish and
Sea anemones*

4.

One clownfish

**In your journal write
1-4 and indicate the
correct vocab word.**

Exit Goal
~Create
layered
foodweb
for Mono
Lake

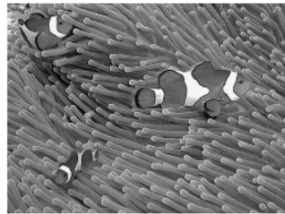

Learning Target: I can create layered food webs.

◆Ecosystem◆

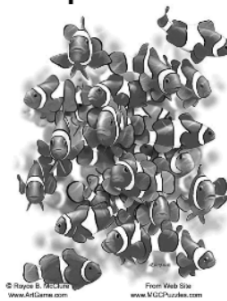

Coral Reef

◆Community◆

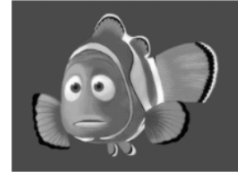

*Clownfish and
Sea anemones*

◆Population◆

Clownfish

◆Individual◆

One clownfish

Learning Target: I can create layered food webs.

03/16

Mono Lake

#2

A- Abiotic

B- Population

C- Biotic

D- Ecosystem

E- Community

F- Individual

1. All the interacting populations in a specified area.

2. Living organisms and products of organisms.

3. One single organism.

4. Nonliving chemical and physical properties in an ecosystem.

5. A system of interacting organisms and nonliving factors in a specified area.

6. All the individuals of one kind (one species) in a specified area

Learning Target: I can create layered food webs.

03/16

Mono Lake

#2

Consumers: *organisms that eat other living organisms.*

Producers: *(Plants) organisms that make food from sunlight, and do not eat any other organism.*

Decomposers break down dead organisms into simpler substances. (bacteria)

Learning Target: I can create layered food webs.

03/16

Mono Lake

#2

Tertiary (Third-level) consumers

Carnivore

Secondary Consumers

omnivores

Primary Consumers

Only eat producers.

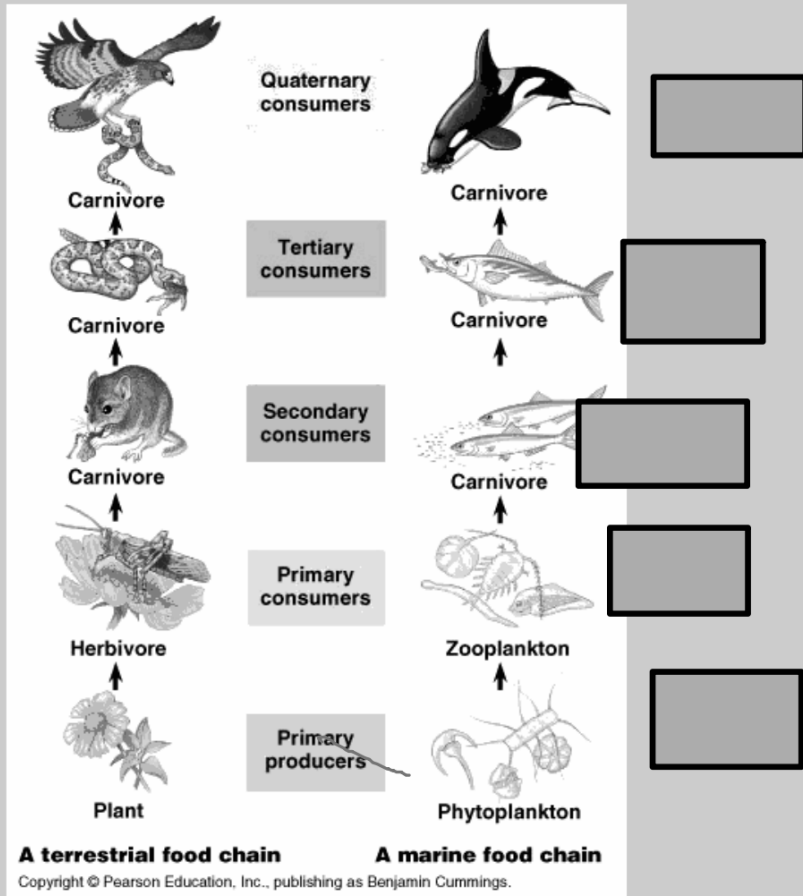

Producers

Make food using energy from Sun.

*phytoplankton
plants/Algae
trees.*

Decomposers

Learning Target: I can create layered food webs.

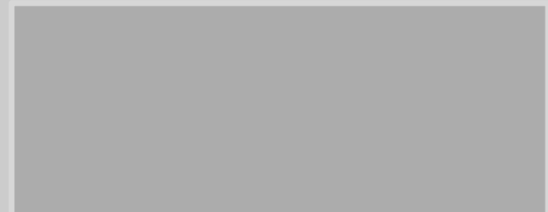

Learning Target: I can create layered food webs.

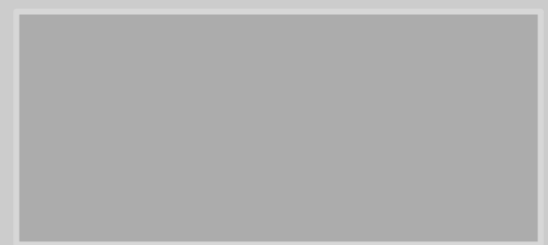

03/16

Mono Lake

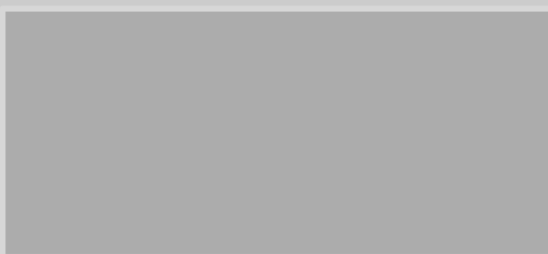

#2

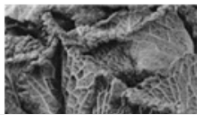

Secondary Consumer

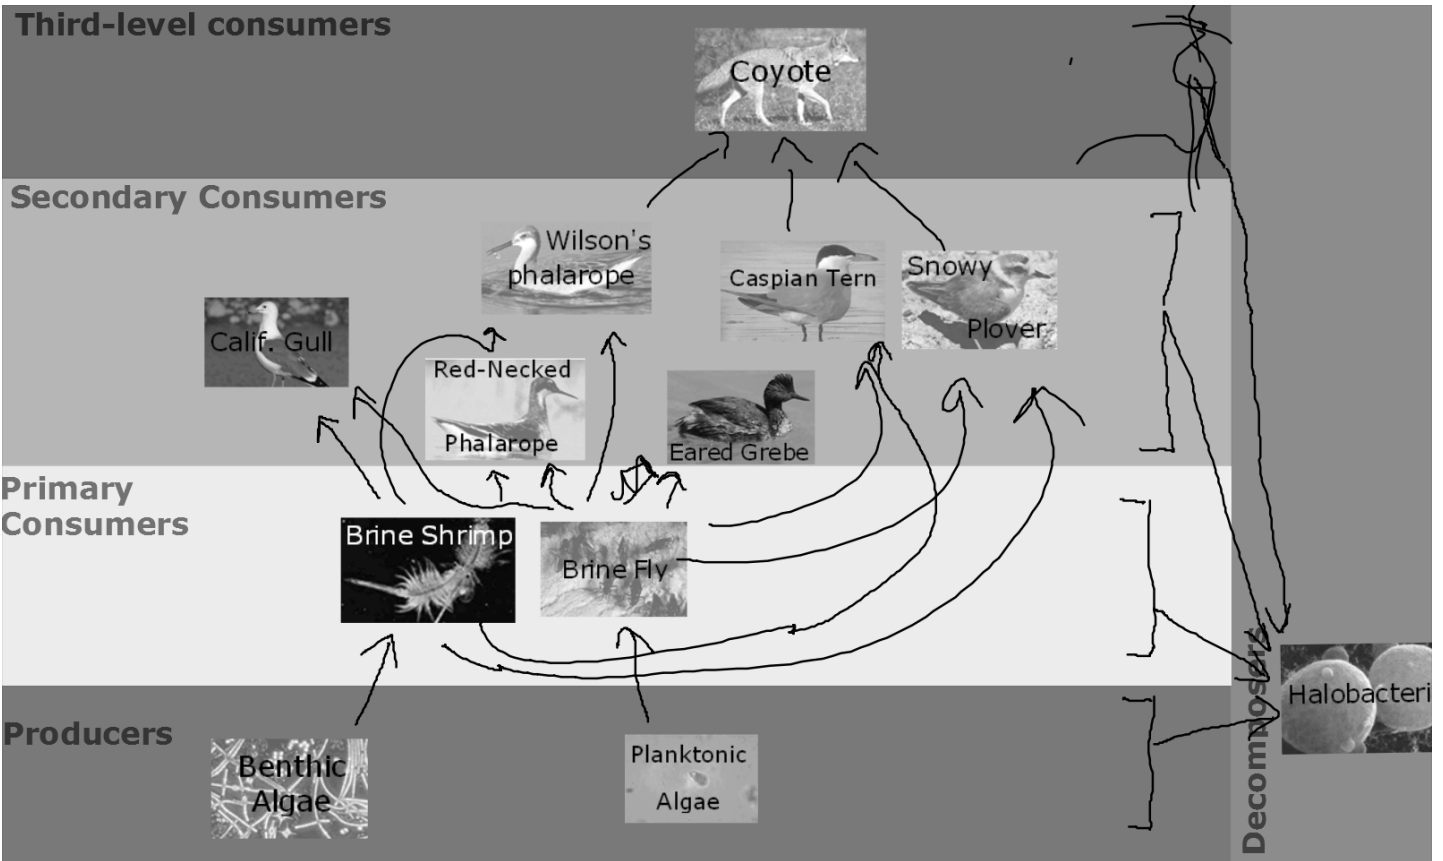

Primary Consumer

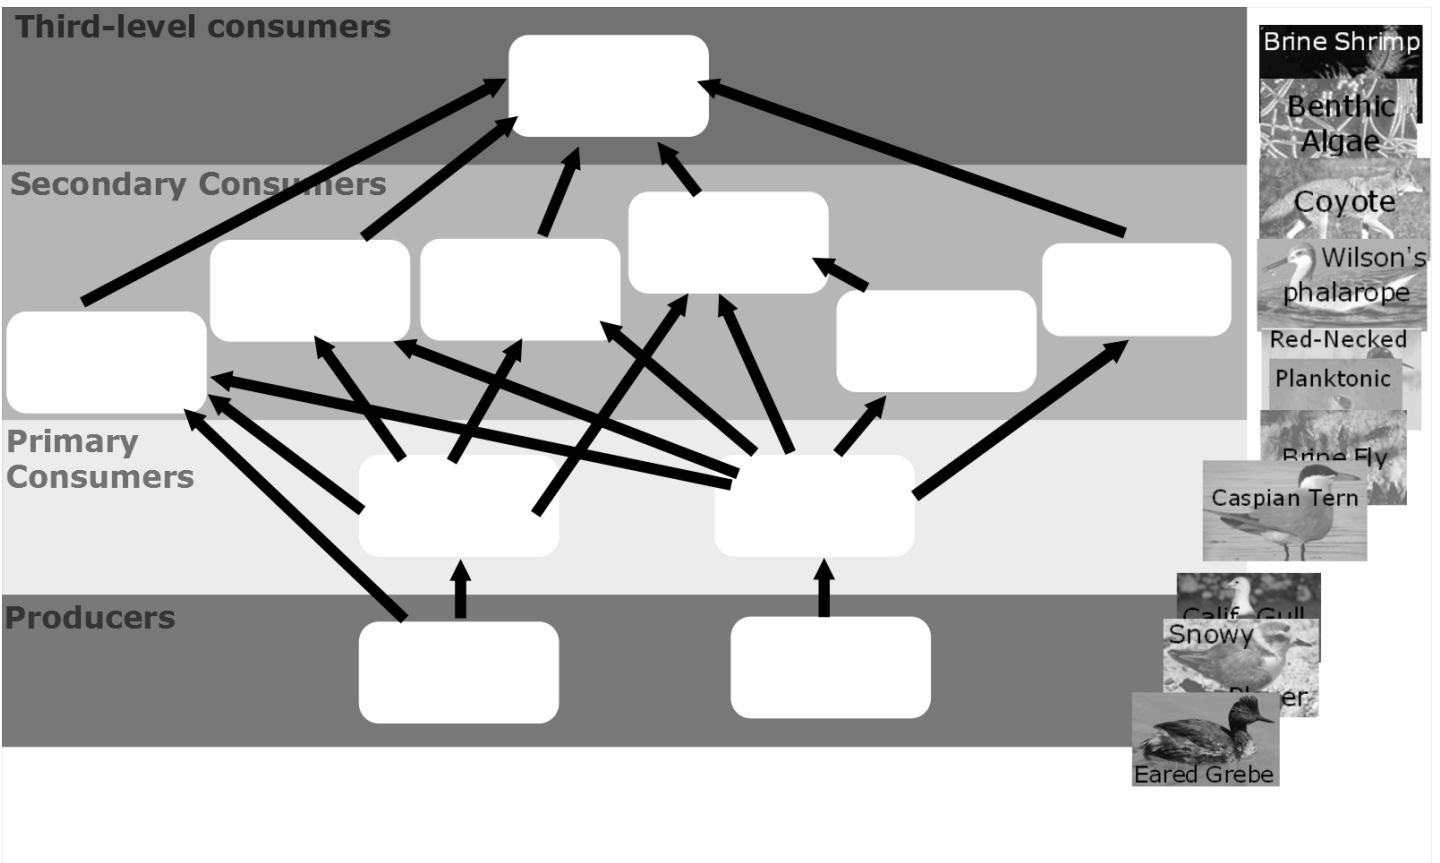

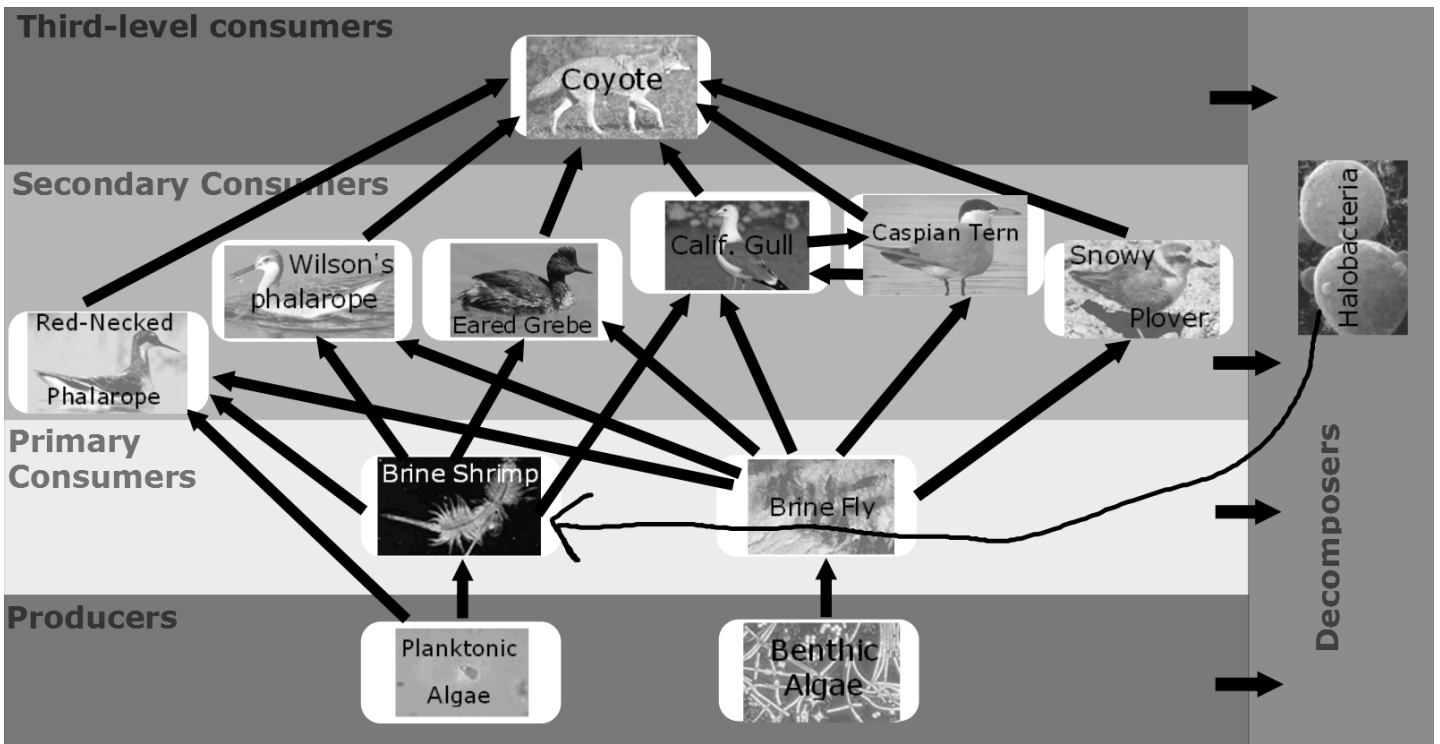

Producer

Learning Target: I can create layer

Plan
 -Vocab Review
 -Layered food webs

Learning target
 I can create a layered food web.

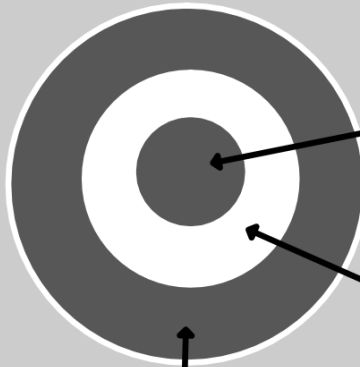

Agenda

-review the vocab
-Apply the vocab to an ecosystem.

Exit goal

Know the organisms in mono lake

How well do you think you have reached the learning target for today?

Bullseye! Got it.

Almost. Need some practice

Got a way to go yet

Learning Target: I can create layered food webs.
