I can use my background knowledge to write a conclusion and a discussion from data.

How does the temperature of cooling water affect the size of the crystals that are formed?

Temperature of water and size of Salol Crystals

Trials	Size of Crystals (mm)		
	ICE	COOL	WARM
1	0.5	1.5	3
2	0.75	2	4
3	1	2.5	3.5
Average	0.75	2	3.5

Write the conclusion and discussion to the investigation using the data table above. (p. 89-91 will help you)
