If there was one thing in your life that you could make better through science , design and technology what would it be?

I can explain my thinking using the technological design Process.

The Design Process
Step 1: Identifying a Need

LEARNING TARGETS

I can explain my thinking using the technological design Process.

Research the Problem
What questions do you need to research and how
will you get the information to answer your question?

> You will have lots of research but record 2 major
> piece of research that you found.
> ach entry must be from a different type of source.

Explore Ideas
What ideas do you have to solve the problem? State
your idea and the scientific reason for your idea.

Due date:wednesday feb 27th build day !!! Bring in
your supplies.
