

Using pages 377-389 in the Physical Science book, answer the following questions

1. What is a machine?
2. How do machines make work easier?
3. For each of the 6 simple machines
 - draw the simple machine
 - explain how each works
 - give an example for each one

I can explain how a simple machine works and relate that to my mousetrap car.

Identify simple machines in your mousetrap car.
Identify compound machines in your car

I can explain how a simple machine works and relate that to my mousetrap car.
